

Traceability- Understanding the Requirements

Swift Silliker (Pty) Ltd t/a Merieux NutriSciences is accredited with FoodBev SETA: Accreditation number: 587/00077/0610

Course Level
SUPPLEMENTARY

Programme Coordinator
LULANIE SWANEPOEL

Duration
ONE DAY

Overview & Objectives

Traceability is the ability to trace, follow and uniquely identify a product unit through a defined production operation or supply chain.

Traceability systems provide information on the history of a product and/or locate it within the supply chain. They help identify the cause of a nonconformity and aid product withdrawal and/or recall. They may also improve an organisation's effectiveness and productivity.

This training course will cover establishing, implementing and maintaining a traceability system.

Course Objectives

To equip delegates:

- With knowledge of traceability systems
- To implement and maintain a traceability system

Outline

- Why traceability?
- Its fundamentals
- Organisation and planning
- Implementation
- Providing evidence of traceability
- Documentation and record keeping
- Practical application

A certificate of attendance will be issued once the course has been successfully completed.

Entry Level Requirements

To ensure that this course is valuable to your company, delegates must be comfortable communicating in English and need suitable reading and writing skills.

Who Should Attend

- Staff responsible for setting up and managing traceability systems
- Employees involved in procuring raw materials
- Quality-assurance staff
- Those involved in technical and supply-chain management

Language

Presented in English.
